Statement

As the President of the Talent Education Research Institute and the niece of Dr. Shinichi Suzuki, I resent the way information has been misrepresented and feel deeply concerned about the article that Mr. Mark O'Connor wrote for "The Daily Telegraph" regarding Dr. Suzuki's personal history and the Suzuki Method.

Please read the attached documents regarding Dr. Suzuki. I do hope that after reading these documents you will be able to understand him correctly.

I would also like to add the fact that Marianne Klingler, the daughter of Prof. Klingler, is one of the founding members of the ESA (European Suzuki Association). She also was the first president of the German Suzuki Association.

Sincerely yours,

A handwritten signature in cursive script that reads "Hiroko Suzuki".

Hiroko Suzuki

President of the Talent Education Research Institute
